## Provider News

Summer 2009

### Providers' Network *Keepin' It Hot*

Issue 14

### Announcing - Summer Event

**Meet & Greet**—All members, previous and new, and also anyone interested in becoming members, can come together to talk about local issues you are facing in your area. Some will have much to say about the Illinois Budget and Child Care Assistance Program. Others may face enrollment issues as fall approaches. Whatever your interests are, come and discuss them with other providers in Illinois. We are also planning to have some of our Associate Resource Members in attendance so you can find needed services for your business. Bring \$65 for 2009/2010 membership dues to get in on early-bird membership cost.

**Grassroots Advocacy Efforts**—With the current budget problems we face in Illinois, there are things you can do to address and educate your local legislators, as well members of the US Congress. Federal Legislators are home until Sept. 3rd. There has never been a better time to get involved in the issues that effect your business. Also scheduled is attendance by Nataly Barrara from Action for Children's Advocacy Group.

Receive a certificate for 2 hours of administrative training

**Notice to previous Providers' Network members:**

Providers' Network will not be an affiliate member of NACCP during 2009/2010. This is due to the cost involved to do so. We, in Illinois are facing crucial financial constraints, as you know, so we have discontinued affiliation with NACCP for now. If you wish to join NACCP, you may still do so by visiting their website [www.naccp.org](http://www.naccp.org). Thank you for your understanding, and continued support of Providers' Network.
